## Enquiries about an existing plot

Enquiries about an existing plot may be for several reasons:

- To find a lost loved ones gravesite.
- To re-use the plot for an at need burial; as a second or third interment.
- Adding or changing a tomb stone or memorial park
- Exhumation of the body
- Maintenance or flower delivery request

When making an enquiry about an existing plot, you will need to provide the following details to the Cemetery

- Full name of the deceased
- Date of interment (or approximate)
- Location of the grave (if known)
- Date of birth
- Date of death
- If possible, last known address
- The reason for the enquiry; and
- Your relationship to the deceased

### Additional Interments

You will need to speak to your Cemetery or Funeral Director to ascertain if it is possible for additional interments for the grave site.

When doing this, have your funeral plot allocation number ready, as you will be asked the details of the grave.

It is also quite helpful to check your burial deed; as it may have information about the number of interments allowed within the site. This can be an indication of approval.
